Mobile Garbage Bins (MGB)

NIOBIN Mobile Garbage Bins (MGB) are designed with a modern appearance and ergonomic functionality to ensure ease of use. Manufactured using advanced injection moulding technology and high-density polyethylene (HDPE), our bins are built for exceptional strength, durability, and long-lasting performance.

Engineered for efficient stacking and optimised logistics, the bins help maximise transport capacity while contributing to reduced CO₂ emissions during delivery. Every bin is manufactured in compliance with internationally recognised quality standards, including DIN and EN 840.

Available in a wide range of colours, and size, NIOBIN MGB are designed to meet diverse waste management requirements across residential, commercial, and industrial applications.

Leach Bins

Niobin's leach bins are designed to be durable and tough. As these bins are normally exposed to the harsh environments and are usually deployed in more rural areas.

Using thick metal sheets and sturdy metal beams and solid wheels to ensure a long product life and easy serviceability.

Available in a wide range of colours, we offer a complete series of accessories in order to cover any issue that may arise during waste collection. These parts can be easily installed by the user.

All the Leach Bins can be customised with a series of options in order to enhance the tracking, identification and logistics by the waste collectors.

RORO Bins

Niobin's roro bins size, colors, wording and capacities can be custom depending on customer's request.

RB-Custom Feet

Recycling Bins

Niobin's recycle bins are made to stand out. To be seen in public spaces to ensure efficient recycle waste collection is done right. These bins are made to withstand high temperatures and harsh UV lights.

We specialise in customising recycling bins so that the bins will reflect the interior decor of our customers. Also to make the bins more attractive and playful. Perfect for any shopping mall, condominiums, hotels, schools, sports facilities, restaurants and even public spaces.

The litter bins are manufactured with the least number of parts to facilitate assembly. **Niobin's** recycle bins comes in a wide range of design and can be customised in various colours to suit each customers needs.

MetalPlas Recycling Bins

Niobin MetalPlas bins are made using durable polyethylene that will not rust, dent or crack easily. Paired with elegant stainless steel cover, this gives the bins a classy look. Suitable for both indoor and outdoor.

A wide range of colour choices are available. Comes also in special wood finish for that presitine look.

The bins can be customised with logos and various types of cover options

Niobin

Stainless Steel Bins

Niobin's modern and elegant stainless steel dustbins are made using SS304 and are polished with a hairline finishing. This bin can be used for a variety of purposes such as waste collection at shopping malls, offices, apartments, parks, healthcare facilities and even restaurants.

These bins have undergone rigorous testing hence it has good impact strength as compared to other bins in the market. It is also available in various powder coated colours and mirror finishing.

The litter bins are manufactured with the least number of parts to facilitate assembly. **Niobin's** litter bins come in a wide range of design and can be customised in various colours to suit each customer's needs.

Niobin

Medical Waste Bins

Progressing forward we have expanded our product line to meet the increasing demands for medical waste Bins (Clinical Bins). With the surge in COVID-19 cases globally. There is no denying that waste collectors are in dire need to step up their ability to deal with the influx of medical waste.

In order to tackle the issue, we had to come up with products that were ergonomically efficient at handling these dangerous biohazard elements. For example these bins are used in hospitals, clinics, quarantine centres and healthcare centres.

Most Importantly the governing body requires that these bins to be in bright yellow colour. Clearly labelled with the Biohazard logo as well SW 404 markings.

MGB Medical Waste Bins

MGB240MW/MWL

The MGB240MW Clinical Waste Bin is a variance of the popular MGB240 which is specially designed to handle bio hazard waste. The bin come with two locks which ensures that content will be safely secured during transportation and keeping hazardous waste safe within the bin.

The bins are manufactured using the highest quality HDPE and is made in accordance to DIN 30740 and EN840. Logos and text on the bins can be customised accordingly to suit the customers needs

Injection moulded HD-Polyethylene,
UV-Stabilized for outdoor use.

Wheels:

Hub: Injection moulded Polyethylene
Tyre: Vulcanised rubber
Axle: Galvanised Steel

Temperature Range: -40°C to + 80°C
Max Load: 98 kg

Width	575
Length	720
Height	1070
Weight (kg)	12±2%
Volume (litres)	240

Lokcs with master key are installed on the MGB240MWL to ensure no spillage during transportation

Custom markings for waste collectors to track weight and dates.

MGB660MW

660Litre wheelbin version for biohazard waste.

Optional: MGB660MWL with master key locks

Width	915
Length	1340
Height	1260
Weight (kg)	41±2%
Volume (litres)	660

MGB120MW

The 120 litre wheel bin variant with standard biohazard markings.

Width	456
Length	553
Height	930
Weight (kg)	8±2%
Volume (litres)	120

DIRECTION OF USE :

Pests	Application Technique	Dilution Rate	Spray Volume
Mosquitoes (<i>Aedes sp.</i> , <i>Culex sp.</i>)	(i) Outdoor - ULV	50 ml product + 1000 ml diesel/kerosene (1:20) 100 ml product + 1000 ml diesel/kerosene (1:10)	1 litre spray solution/ha 500 ml spray solution/ha
Flies (<i>Musca Domestica</i>)	- Thermal fogging	2 ml product + 1000 ml diesel/kerosene (1:500) 10 ml product + 1000 ml diesel/kerosene (1:100)	*50 litre spray solution/ha *50 litre spray solution/ha
	(ii) Indoors - ULV	500 ml product + 1000 ml diesel/kerosene (1:10)	10-20ml spray solution/house or 100ml spray solution/2000m ³
	- Thermal fogging	20 ml product + 1000 ml diesel/kerosene (1:50)	1 litre spray solution/2000m or 100-200 ml spray solution/house

* High output machines that gives a flow rate of 30-190 litre/hour

** Low output machines that gives a flow rate of 12-25 litre/hour

Pack sizes: Resigen is available in 1 litre container and 25 litre drum

Aqua Resigen

Direction for use: Aqua Resigen is suitable for dilution in WATER ONLY and application as an ultra-low volume (ULV), thermal fog or mist according to the following table.

Places	Pests	Application Technique	Rate	Remarks
Public places, Domestic areas	Mosquitoes (<i>Aedes sp.</i> , <i>Culex sp.</i>)	(i) Thermal fogging - Outdoor	10 ml/litre (1:100)	Use 10 litre/ha with high output machines
			20 ml/litre (1:50)	Use 5 litre/ha with high output machines
	Flies (<i>Musca domestica</i>)	(ii) Ultra low volume (ULV) - Outdoor	100 ml/litre (1:10)	Use 500 ml/ha
			50 ml/litre (1:20)	Use 1 litre/ha

Vectobac WG

Direction of use :

Pest	Target Location	Method	Levels of mixtures	Dosage
Mosquitoes (<i>Aedes aegypti</i> , <i>Anopheles sp.</i>)	Irrigation drainage, roadside ditches, flooded areas, ponds, water catchment areas	ULV	250 - 500 g/ha using 250 g/litre water	1 - 2 litre/ha
		Thermal Fogging	250 - 500 g/ha using 250 g/ 10 litre water	10 - 20 litre/ha
	Polluted areas and sewage areas	Bearing spray	250 - 500 g/ha using 5 g/ 10 litre water	50 - 100 ml/m ²
	Pool or water storage container	'Serak terus'	2 - 8 g/ 1000 litre water	

ABATE 1.1G

Direction of use :

Pest	Method	Target Location	Levels of mixtures
Mosquitoes (<i>Aedes sp.</i> , <i>Culex sp.</i>)	Sprinkle evenly and reuse 2-3 months if necessary	Irrigation drainage, roadside ditches, flooded areas, ponds, water catchment areas	10 ml/5g
		Pool or water storage container	2 g/18 litre water

Sumithion L -40

Direction of use :

Pest	Target location	Situation	Method	Dosage
Mosquitoes (<i>Aedes aegypti</i> , <i>Aedes albopictus</i> , <i>Culex quinquefasciatus</i>)	Likely sites where mosquitoes hide, breed and active e.g.: residential areas, construction sites, industrial sites, animal farm, estates, abandoned land, high rise flats, etc.	When cases of vector borne disease (e.g. dengue) is being reported or as preventive operation in high risk area for the mentioned disease	ULV Spraying	500 ml/ha **1000 ml/ha
			Thermal Fogging	SUMITHION L-40 : Diesel 50 ml : 1000 ml

** Higher dosage can control adult mosquito and larvae in one shot application. The larvicidal residual activity has persisted for at least 4 weeks.

Sumilarv 0.5G

Where to use Sumilarv 0.5G ?

Apply at mosquito breeding sites
Standing water : Reservoir, swamp, rain pool, pond, etc.
Running water : Drain, ditch, creek, stream, river, etc.

What amount is required to achieve results ?

Standing water
It should be use as shown in the table below,
Based upon a target concentration of 0.01-0.05 ppm A.I.
(2-10 g/ml of Sumilarv 0.5G)

Depth (cm)	Sumilarv 0.5G (kg/ha)
10	2 - 10
20	4 - 20
30	6 - 30
50	10 - 50

Malathion UL 96

Direction of use:

Pest	Target location	Method	Level of Mixtures	Dosage
Mosquitoes (<i>Aedes aegypti</i>)	Outdoor	ULV	Use directly without diluting	440 ml
Mosquitoes (<i>Anopheles sp.</i>)		Thermal Fogging	30 ml/litre diesel	420 ml

Lavette 500e

Direction of use :

Pest	Method	Target Location	Levels of Mixtures
Mosquitoes (<i>Aedes albopictus</i>)	Aim the torrent for 1 moment thoroughly over the catchment	Irrigation drainage, roadside ditches, flooded areas, ponds, water catchment areas, storage container	12 ml with 10 litre water

Fentex EC

Direction of use :

Pest	Target Location	Content - 10 litre	Content - 100 m ³	Dosage
Mosquitoes (<i>Aedes aegypti</i> , <i>Aedes albopictus</i> , <i>Culex quinquefasciatus</i>)	Industrial residential areas and business areas.	15 ml of water for 10 liters of water.		125 ml
	Water pool or stagnant water	30 ml/ha		
	Toilet tank	Pump 10 ml into the tank once every 4 weeks		

Yasodion

Direction of use :
Yasodion is a type of anti-clump poison whose active ingredient is Diphasinone. It is wrapped in an airtight paper bag

Plant	Rate/Poison	Method of Use
Paddy	1-2 sachets/ rat hole	Place 102 sacks in a rat hole or on distance every 10 meters along the border and 30 meters around the farm.

Niobin Printing Services

NIOBIN's printing services provide reliable, high-quality solutions for a wide range of personal and business needs. From custom stickers, labels, signage, banners, shirts, tote bags, hat/caps, and promotional materials to corporate branding products, we deliver precision, vibrant prints, and durable finishes. With a commitment to quality and customer satisfaction, NIOBIN helps businesses enhance their brand identity through professional printing solutions.
